## HONORARY CHAIR

61<sup>ST</sup> EDITION  
OF THE HYDRO-QUÉBEC SCIENCE FAIR

### CLAUDINE BOUCHARD

Executive Vice President – TransÉnergie and Construction  
**Hydro-Québec**

It's a pleasure to join you this year for the 61st edition of Expo-sciences Hydro-Québec. These science fairs have represented an important milestone in the academic paths of so many Quebecers since they were launched in 1960. I am certain that positive experiences help young people discover who they are and what motivates them, while cultivating a drive to innovate.

The current global pandemic has changed our lives and our vision of the world. It has presented huge challenges but also many opportunities to reinvent ourselves and build a better future for our society.

I would like to congratulate all participants for their curiosity, creativity and perseverance. I hope your experience is both enriching and stimulating.

I would also like to acknowledge the parents, friends, teachers and all those who have invested time and energy in helping these young people reach their full potential.

I hope you enjoy the Expo-sciences Hydro-Québec finals!

**CLAUDINE BOUCHARD**

## PREMIER PARTNER

61<sup>ST</sup> EDITION  
OF HYDRO-QUÉBEC SCIENCE FAIR

**PIERRE FITZGIBBON**

Minister of Economy and Innovation

Research and innovation are invaluable assets that help us meet the challenges of society and stimulate the economy. This is the reason why the Québec government places a high priority on the next scientific generation.

We are proud to encourage the holding of Expo-sciences Hydro-Québec, Défi génie inventif, Défi apprenti génie, and Odyssée de l'objet. These initiatives, along with the other activities of Réseau TechnoScience, showcase the creativity and determination of Québec's young scientists.

I wish to thank the network's team and its regional members for their great ability to adapt in organizing this year's virtual editions.

Thank you to the teaching staff and parents who are helping young people along their path of discovery. Promoting science and fostering an interest in science is a collective mission. I am pleased to see that we are all working together to achieve these goals. Québec needs talented people in technology, engineering and mathematics to build the society of tomorrow and to change the world.

To all the participants, I wish you friendly competitions that provide the opportunity to explore new horizons. I hope that this experience inspires you to pursue the road to scientific knowledge, achieve your dreams and aspire to a long and successful career!

## SPOKESMAN

61<sup>ST</sup> EDITION  
OF HYDRO-QUÉBEC SCIENCE FAIR

**LUC LANGEVIN**

Illusionist

I'm happy to welcome you to the virtual Regional Finals of the Hydro-Québec Science Fair! As you will surely agree with me, the past year has been full of challenges and we've all had to be ingenious to adapt. I invite you to discover in the next days the projects of young science and technology enthusiasts who have taken up this challenge brilliantly. The 61st edition of the Hydro-Québec Science Fair will certainly be different from the previous ones, but it will still be a golden opportunity to exchange with the other participants, the judges, and visitors from across Quebec.

Dear exhibitors, be proud of yourselves and your accomplishments! Having visited several finals in recent years, I know your projects result from a great deal of hard work, and this is particularly true in the current context. You took a simple idea and transformed it into a unique project. You impress, surprise and reassure us: With such inspired young people, our future is in good hands!

I know that for many of you, the Hydro-Québec Science Fair has been an adventure requiring support from persons around you. Teachers, educational advisers, school personnel, partners, mentors, volunteers, parents and friends: many thanks to you! It's partly due to your commitment that these young people have been able to carry out their projects successfully and that the Science Fairs have been possible for more than 60 years.

On behalf of the Réseau Technoscience and on my own behalf, bravo to the participants! You've taken up the challenge of science with flying colours!

**LUC LANGEVIN**

# BOARD OF DIRECTORS

2021 Edition

HYDRO-QUÉBEC MONTREAL REGIONAL SCIENCE AND TECHNOLOGY FAIR

**MR. AGOSTINO PORCHETTA**

**PRESIDENT – EAST**

Dear Participants,

In a year where life has been challenging and difficult, you chose to DARE SCIENCE and participate in the first ever Virtual Montreal Regional Science and Technology Fair. Science and Technology are more important than ever, and we are delighted to be able to host this event for you. We know that you will change the world with your curiosity, determination and intelligence.

The Educational Alliance for Science and Technology (EAST) is a non-profit organization that promotes science and technology to young Quebecers through its numerous annual activities, such as the Montreal Regional Science & Technology Fair, the CRC Robotics competition and the Junior Robotics competition.

Thanks to our major partners and sponsors, our volunteer-based organization will continue to “INSPIRE”, “ENCOURAGE” and “ENABLE” young minds in Quebec for years to come.

To find out more about our events, follow us on Facebook @aesteast and visit our website ([www.sciencetech.ca](http://www.sciencetech.ca)).

## Congratulations to all participants!

## CHIEF JUDGE

### 2021 EDITION

Hydro Québec Montreal Regional Science and Technology Fair

**DR. HEATHER MCPHERSON**

*CHIEF JUDGE - Sir Wilfrid Laurier School Board*

Welcome to the virtual 2021 edition of the Hydro-Québec Montreal Regional Science and Technology Fair. Over the next three days, you will have rich and rewarding opportunities to explore scientific and technological innovations with students from the Greater Montreal Region. I know how much time and energy that all of you have invested into planning, developing and innovating your projects. I hope that this experience will lead you on the path to future scientific inquiries and technological innovations.

Enjoy and celebrate your achievements as you share your journey with other participants at the MRSTF. Congratulations on being chosen to participate in the 2021 MRSTF!

We wish you the best at this competition.

**HEATHER MCPHERSON**

Chief Judge  
MRSTF-2021

# SCHEDULE - HYDRO-QUÉBEC MRSTF 2021

SUNDAY, MARCH 28	FROM	TO
EXHIBITORS & TEACHERS		
Opening Ceremony	12:30	13:30
- Overview of the event (via Zoom)		
- Questions & Answers		
PUBLIC VIEWING <a href="#">Connexion.TV</a>	13:30	15:00
- Students will be live at their "table" to present their projects <a href="#">Connexion.TV</a>		
- <b>Friends, family and the public at large can <a href="#">Click here to register at the Connexion.TV Website (a confirmation email with a link to the event will follow)</a></b>		
- A detailed schedule is available on our website <a href="https://sciencetech.ca/montreal-regional-science-technology-fair/">https://sciencetech.ca/montreal-regional-science-technology-fair/</a>		
TEACHERS		
Teachers Briefing (will be held on Zoom, link sent by email)	14:30	15:15
MONDAY, MARCH 29	FROM	TO
JUDGES		
- Judges briefing for project evaluation (via Zoom)	8:15	9:00
- Project Judging	9:00	12:30
EXHIBITORS		
- Exhibitor's Check-In (Zoom)	8:45	
- Project Judging (Zoom)	9:00	12:30
- Exhibitors presentations for public viewing via <a href="#">Connexion.TV</a>	13:00	15:00
PUBLIC VIEWING		
- Students will be live at their "table" to present their projects	13:00	15:00
- <b>Friends, family and the public at large can <a href="#">Click here to register at the Connexion.TV Website (a confirmation email with a link to the event will follow)</a></b>		
- A detailed schedule is available on our website <a href="https://sciencetech.ca/montreal-regional-science-technology-fair/">https://sciencetech.ca/montreal-regional-science-technology-fair/</a>		
TUESDAY, MARCH 30	FROM	TO
EXHIBITORS		
- Live public viewing on <a href="#">Connexion.TV</a> Students are scheduled to present their project live)	9:00	12:00
- <b>Friends, family and the public at large can <a href="#">Click here to register at the Connexion.TV Website (a confirmation email with a link to the event will follow)</a></b>		
- A detailed schedule of student presentations is found on our website <a href="https://sciencetech.ca/montreal-regional-science-technology-fair/">https://sciencetech.ca/montreal-regional-science-technology-fair/</a>		
AWARDS CEREMONY		
- Exhibitors will join in live on Zoom (join between 15:15 and 15:30)	15:15	17:00
- The Awards Ceremony will take place this year on <a href="#">Connexion.TV</a>	16:00	
- Friends, family and the Public can watch the ceremony on Connexion.TV		

# PUBLIC VIEWING - REGISTER HERE

## DETAILS

- **This year, all Public Viewing as well as the Award Ceremony will be held on a platform called [Connexion.TV](#) . This platform will allow you to browse and interact with students virtually**
- Friends, family and the general public are invited to visit our student projects on the [Connexion.TV](#) platform.
  - o You may browse student "booths" (called tables in the platform) and watch their videos
  - o There is a detailed schedule provides you with the list of LIVE presentations by students at their tables each day
- **Visitors must [REGISTER](#) in order to access the site**
- Once registered, you will receive an email with a link to the site. There is a [FAQ document](#) if you need support
- From the LOBBY you should **click on "EXHIBITORS"** to be brought to the **Student Projects (Tables)**
  - o Click on the "INFO" button to learn more about a project to join a table.
  - o You will be brought to the project video, a project description, and the list of times that they are presenting
  - o If you wish to join the **LIVE PRESENTATION**, click "**JOIN TABLE**" (Top Right)
  - o Each "Table" has a maximum of 8 people at a time who can join a LIVE presentation
- NOTE: When you join a table, you will be asked to activate your microphone and camera. This is a LIVE interaction. You will also have the option of turning off your camera and microphone. At the table, there is also a **CHAT** feature where you can leave positive messages for the students.

## MONTREAL REGIONAL SCIENCE AND TECHNOLOGY FAIR 2022

LAVAL SENIOR HIGH SCHOOL  
(Or Virtual if Necessary)  
MARCH 27<sup>TH</sup> – MARCH 29<sup>TH</sup> 2022

# DISTINGUISHED SERVICE AWARDS

Presented by: Youth Science Canada  
To be officially presented in May 2021

**MR. AGOSTINO PORCHETTA**  
President, EAST

Agostino “Gus” Porchetta has been the President of the EAST organization for as long as anyone can remember. He has promoted and directed our region’s endeavors towards promoting science and technology fairs at the local, regional, provincial, national and international levels for over twenty-one years.

Gus acted as Science and Technology Fair Director (MRSTF) for many years and he has been instrumental in developing the relationships that have made the MRSTF, and all other programs at EAST such a success story. As President, Gus encouraged the Montreal hosting bid for the 2016 Canada-Wide Science Fair, a milestone in EAST’s history.

People will remember Gus for his love of an espresso and his strong passion for science literacy. Under his leadership, we will always be grateful for his steadfast determination to remain financially sound but, at the same time, providing premier events for students in the Greater Montreal Area.

After many years of service, and a long career as an educator, Gus is hoping to retire (although we keep asking him to stay on for “one more year”). We thank Gus for his illustrious career in science and technology, and his unwavering support.

We are so delighted that he has been selected to receive this award from Youth Science Canada.

**MR. WILSON WONG**  
Vice-President, EAST

Wilson Wong is the longest, continuously serving, volunteer in our organization. He has clocked-in over 31 years towards promoting and organizing science fairs at the local, regional, provincial, national and international levels. In addition, Wilson has either organized or supported EAST’s two-robotics programs (CRC-Robotics & RoboJunior) for over twenty years, and on a completely volunteer basis.

Without his enthusiasm, the Montreal Regional Science & Technology Fair would not have achieved such high records of enrolment, nor have been so successful. He was a Local Host Co-Chair for the Canada-Wide Science Fair in 2016, here in Montreal.

He has supported numerous science and robotics students who have consistently won awards at all levels. Wilson has also played several roles with the Canada-Wide Science Fair over the years. He has been everything from a Chaperone, to a Chief Judge as well as a member of the CJAP (Judging) teams.

Wilson has been EAST’s Vice-President since 2001, and continues to be involved in the organization of EAST events. Not to mention, he is EAST’s official caterer and will tell you “it’s no big deal” to prepare meals for over 30 people at once!

For his unwavering service and support we are so pleased he has been selected to receive this award from Youth Science Canada.

**CONGRATULATIONS GUS & WILSON**
