

2024 Montreal Regional Science & Technology Fair

How to Register

- 1) Please visit this link, [Zoho, provincial online registration platform](#)

Participant registration

You are currently registering for the **EXPO SCIENCES HYDRO-QUÉBEC, HIGHSCHOOL AND COLLEGE COMPONENT program**.

If this is not the program you want, please return to our website and click on the registration link for the correct program.

Information about the participant

Name *

First name

Last name

- 2) Fill out the form with all your project information

In order to complete your registration, you will need the following information:

- Your e-mail address; This information is essential so that we can communicate with you and so that you can follow up on your registration. It is therefore important to check that there are no typing errors.
- Your school name.
- Your teammate's correct e-mail address if you're submitting a duo project (double check it!)
- The name and telephone number of an emergency contact who can be reached at any time during the event
- The title of your project, which you will enter in the "team name" and "project title" fields of the form
- Your teacher's correct e-mail address (double check it!)
- Information about your project, such as
 - the title
 - type (experimentation or design)
 - short description
 - the category of your project

The registration form may take some time to complete to ensure a complete and accurate process. Once registered, you'll receive an invitation to the portal, where you can view and modify your information.

- 3) If you are required ethics approval, please go to this [website](#) and complete the form. Please note that you should do this as soon as possible. This will help if the ethics committee comes back with questions and follow ups.

ETHICS AND RULES FORM

In science, every scientist must follow a rigorous process that takes into account safety standards. The Science Fair rules are designed to ensure your safety, that of the public and allow you to respect a rigorous approach.

This app will help you to know if your project needs an authorization request from the Ethics or Rules committee. It will allow you to contact the Ethics and Rules committee once your request is filled. Failure to comply with the Science Fair rules may result in the disqualification of the team. It is therefore essential to read them carefully!

Projects with active participation by human subjects or with the use of live animals, the use of animal tissue or parts of animals, the use of animal tissue or parts of animals, the use of plant or animal cells, the use of any other biological materials, the use of human biological materials and the use of chemicals ALL NEED an authorization request .

I don't know if I need an authorization

My project necessitate an authorization
